## Temporary Closure Extension Request - UST & AST

(Revised 4/4/2019)

When a tank system is temporarily closed for more than 12 months, owners/operators must permanently close the tank system or return the tank(s) back to service. At the discretion of the Division of Oil and Public Safety (OPS), a 12-month extension may be granted. To request an extension, owners/operators must complete and submit this form to the Division of Oil and Public Safety via email or postal mail, along with a site assessment and current cathodic protection test results (if applicable).

Please contact us at 303-318-8525 if you have any questions.

To report a suspected or confirmed release discovered at temporary closure, please call the Division of Oil and Public Safety Technical Assistance line at 303-318-8547.
