WELCOME TO THE COSTIS-IA COMMUNITY

The OPS Petroleum Program regulates petroleum storage facilities with USTs (underground storage tanks) that hold 110 gallons or more and ASTs (aboveground storage tanks) that hold between 60 and 40,000 gallons. We also enforce NFPA (National Fire Protection Association) codes for ASTs that hold between 60 and 660 gallons or 40,000+ gallons when they are installed for retail and non-retail fueling. Please visit our website for additional information about the OPS Petroleum Program.

Contact OPS or Request Assistance

Please review the options below when you are selecting why you are contacting OPS

Consumer Complaint: Submit a consumer complaint regarding fuel quality or quantity.

Technical Assistance: Request OPS follow up regarding a concern about a facility, request a site visit from an OPS Inspector, submit information about a facility for follow up from OPS, or report a potential regulated substance release.

Community Access Request: Request access for a registered user name and password for enhanced community functionality, access for an existing user to gain access to additional facilities, or request to remove access for registered users from the community.

Transfer of Ownership: Notify OPS of changes to ownership of regulated facilities.

General: Submit a general request to OPS.

* Please let us know why you are contacting OPS:
