ARTICLE 1 GENERAL PROVISIONS

Section 1-1 Statement of Basis and Purpose

These regulations are promulgated to establish rules for the design, installation, registration, construction, operation, maintenance, and inspection of conveyances, and for the licensing of conveyance mechanics, contractors, and inspectors. The purpose of these regulations is to ensure that elevators and other automated conveyances are correctly and safely installed and operated within the state.

Section 1-2 Statutory Authority

These regulations have been created pursuant to the Elevator and Escalator Certification Act, Title 9 Article 5.5 Section 116 of the Colorado Revised Statutes (C.R.S.).

Section 1-3 Effective Date

These amended regulations shall be effective on February 1, 2013 and supersede all prior editions. The prior editions of the regulations were effective January 1, 2011, January 1, 2010 and January 1, 2009. Emergency regulations were in effect from April 2, 2008 until the promulgation of permanent rules.

Section 1-4 Definitions

Terms in these regulations shall have the same definitions as those found in Article 5.5 of Title 9 of the C.R.S. or as defined below.

- (1) **ACCEPTANCE INSPECTION.** The initial inspection and testing, conducted by a licensed Conveyance Inspector, of a new or altered conveyance to verify compliance with standards as defined in these regulations.
- (2) **ADMINISTRATOR.** The Director of the Division of Oil and Public Safety within the Department of Labor and Employment or the Director's designee.
- (3) **ADVISORY BOARD.** A group of experts within the conveyance industry chosen by the Administrator to assist in the development of regulations and resolution of issues relating to the operation of the program.
- (4) **AFFILIATED.** An employment or subsidiary relationship between two entities.
- (5) **AHJ CONVEYANCE INSPECTOR.** A conveyance inspector who is employed by an Approved AHJ to inspect a conveyance and who is not affiliated with the conveyance mechanic whose repair, alteration or installation is being inspected.
- (6) **AHJ-APPOINTED CONVEYANCE INSPECTOR.** A conveyance inspector who is employed by a non-profit entity, voluntary association or other council of governments that has been appointed or designated by an Approved AHJ to provide conveyance plan review and/or inspection services and who is not affiliated with the conveyance mechanic whose repair, alteration or installation is being inspected.
- (7) **ALTERATION.** As defined in American Society of Mechanical Engineers (ASME) A17.1: any change to equipment, including its parts, components, and/or subsystems, other than maintenance, repair, or replacement and as further defined by the Administrator as an activity that requires an alteration permit, as defined in Section 2-4-1.
- (8) **ALTERATION-EMERGENCY.** An alteration that is limited to minor alteration activities and to those facilities where the building is dependent on the conveyance as the sole means of access and no other conveyance is available. The conveyance contractor performing such alteration shall submit a minor alteration permit application to the Administrator or Approved AHJ by the next working day.
- (9) **ALTERATION-MAJOR.** An alteration that is extensive in scope such that it warrants a complete witnessed acceptance inspection and applicable tests.

- (10) ALTERATION-MINOR. An alteration that is minor in scope, such that it only warrants the specific component(s) being altered to be tested and inspected.
- (11) ALTERATION-SUBSTANTIAL. An alteration that includes:
- (a) The change in the type of service of an elevator, or
 - (b) The change in the type of operation control or motion control on an elevator, or
 - (c) The replacement of a controller in conjunction with another alteration on an electric elevator.
- (12) ALTERNATE MATERIALS AND METHODS REQUEST. The submittal of documentation to the Administrator or Approved AHJ by a conveyance owner or conveyance contractor that justifies the use of alternate methods or materials for the implementation of standards adopted pursuant to these regulations.
- (13) ANSI. American National Standards Institute.
- (14) APPROVED AUTHORITY HAVING JURISDICTION (AHJ). A local jurisdiction or any agent thereof that has been approved by the Administrator pursuant to Section 2-3 of these regulations.
- (15) ASCE. American Society of Civil Engineers.
- (16) ASCE 21. Automated People Mover Standards published as ASCE 21 Parts 1 through 4, as amended by the ASCE.
- (17) ASME. American Society of Mechanical Engineers.
- (18) ASME A17.1. Safety Code for Elevators and Escalators published by ASME.
- (19) ASME A17.2. Guide for Inspection of Elevators, Escalators, and Moving Walks published by ASME.
- (20) ASME A17.3. Safety Code for Existing Elevators and Escalators published by ASME.
- (21) ASME A18.1. Safety Standard for Platform Lifts and Stairway Chairlifts published by ASME.
- (22) ASME QEI-1. Standard for the Qualifications of Elevator Inspectors published by ASME.
- (23) AUTHORITY HAVING JURISDICTION. A local jurisdiction that includes a fire department, fire district or fire authority that is responsible for enforcing the requirements of a code or standard or for approving equipment, materials, an installation or a procedure.
- (24) AUTOMATED PEOPLE MOVER (APM). As defined in ASCE 21; a guided transit mode with fully automated operation, featuring vehicles that operate on guideways with exclusive right-of-way.
- (25) AUTOMATED PEOPLE MOVER ALTERATION. Any change to equipment, including its parts, components and/or subsystems, other than maintenance, repair or replacement that does not materially affect the APM integrity, operation or control.
- (26) CERTIFICATE OF OPERATION. A document issued by the Administrator or an Approved AHJ for a conveyance that indicates that the conveyance has had the required safety inspection and tests, and fees have been paid as set forth in these regulations.
- (27) CERTIFICATE OF SUBSTANTIAL COMPLETION. Certificate issued by the owner of an APM system stating that work relating to a product has progressed to the point that the owner can beneficially occupy or utilize the product for the purpose for which it is intended and the work and product comply with all applicable codes and regulations.
- (28) CONSTRUCTION CERTIFICATE OF OPERATION. A document issued by the Administrator or an Approved AHJ for a conveyance that allows the temporary operation of a conveyance for the support of construction activities and is not accessible to the public.

- (29) CONVEYANCE CONTRACTOR. A person who holds a current conveyance contractor license issued by the Administrator.
- (30) CONVEYANCE INSPECTOR. A person as described in (5), (6) or (52) of this Section who holds a current conveyance inspector license issued by the Administrator and who is not affiliated with the conveyance owner, general contractor or conveyance contractor performing work on the conveyance.
- (31) CONVEYANCE MECHANIC. A person who holds a current conveyance mechanic or temporary conveyance mechanic license issued by the Administrator.
- (32) CONVEYANCE OWNER. The owner of the conveyance or assigned agent responsible for maintaining the conveyance.
- (33) DOOR RESTRICTORS. As described in ASME A17.3-2005 Section 2.7.5.
- (34) DUMBWAITER. As defined in ASME A17.1: a hoisting and lowering mechanism equipped with a car of limited size that moves in guide rails and serves two or more landings that is used exclusively for carrying materials.
- (35) ELECTRIC ELEVATOR. As defined in ASME A17.1: a power elevator in which the energy is applied, by means of an electric driving machine.
- (36) ELEVATOR. As defined in ASME A17.1: a hoisting or lowering mechanism, equipped with a car that moves within guides and serves two or more landings.
- (37) ESCALATOR. As defined in ASME A17.1: a power-driven inclined, continuous stairway used for raising or lowering passengers.
- (38) FIREFIGHTERS' SERVICE. As described in ASME A17.3-2005 Section 3.11.3.
- (39) HYDRAULIC ELEVATOR. As defined in ASME A17.1: a power elevator in which the energy is applied, by means of a liquid under pressure, in a hydraulic jack.
- (40) INJURY. An injury that results in death or requires medical treatment (other than first aid) administered by a physician or by registered professional personnel under the standing orders of a physician. Medical treatment does not include first aid treatment for one time treatment and subsequent observation of minor scratches, cuts, burns, splinters, and any other minor injuries that do not ordinarily require medical care even though treatment is provided by a physician or by registered professional personnel.
- (41) LICENSE. A written license, duly issued by the Administrator, authorizing a person, sole proprietor, firm, or company to carry on the business of erecting, constructing, installing, altering, servicing, repairing, maintaining or performing inspections of conveyances covered by these regulations.
- (42) LOCAL JURISDICTION. A city, county, city and county or any agent thereof.
- (43) MANAGING AGENT. A person or company that is hired by the building owner or lessee to be responsible for maintenance of the conveyance(s).
- (44) MATERIAL RISK. A risk to public safety as determined by the Administrator in cooperation with local jurisdictions.
- (45) MOTION CONTROL. As defined in ASME A17.1: that portion of a control system that governs the acceleration, speed, retardation, and stopping of the moving member.
- (46) MOVING WALK. As defined in ASME A17.1: a type of passenger-carrying device on which passengers stand or walk and in which the passenger-carrying surface remains parallel to its direction of motion and is uninterrupted.
- (47) NFPA 13. The National Fire Protection Association 13 – Standard for the Installation of Sprinkler Systems.

- (48) OPERATION CONTROL. As defined in ASME A17.1: that portion of a control system that initiates the starting, stopping, and direction of motion, in response to a signal from an operating device.
- (49) PERIODIC INSPECTION. The inspection and testing conducted by a licensed conveyance inspector of an existing conveyance to verify compliance with standards as defined in these regulations.
- (50) PERSONNEL HOIST. A “special purpose personnel elevator” as defined in ASME A17.1; “an elevator that is limited in size, capacity, and speed, and permanently installed in structures, such as grain elevators, radio antennae, bridge towers, underground facilities, power plants, and similar structures to provide vertical transportation of authorized personnel and their tools and equipment only.”
- (51) PLATFORM LIFT. As defined in ASME A18.1; “a powered hoisting and lowering mechanism designed to transport mobility impaired persons on a guided platform that travels vertically or on an incline.”
- (52) PRIVATE CONVEYANCE INSPECTOR. A conveyance inspector who is not an Approved AHJ or Approved AHJ-appointed conveyance inspector but is retained by the conveyance owner to inspect a conveyance and who is not affiliated with the conveyance mechanic whose repair, alteration, or installation is being inspected.
- (53) PRIVATE RESIDENCE CONVEYANCE. A power passenger conveyance that is limited in size, capacity, rise, and speed and is designed to be installed in a private residence or in a multiple dwelling as a means of access to a private residence.
- (54) REFINISH. Those cab refinishing activities that are limited to “in place” work such that the removal of the cab panels or walls is not required and does not include any change in the type of materials of the existing cab interior. These cab refinishing activities shall not add or subtract weight to the existing cab.
- (55) REPAIR. As defined in ASME A17.1; “reconditioning or renewal of parts, components, and/or subsystems necessary to keep equipment in compliance with applicable Code requirements”.
- (56) REPLACEMENT. As defined in ASME A17.1; “the substitution of a device or component and/or subsystems, in its entirety, with a unit that is basically the same as the original for the purpose of ensuring performance in accordance with applicable Code requirements”.
- (57) SYSTEM VERIFICATION. Activities with a set of minimum standards by which an APM system application shall be verified to meet the ASCE 21 Parts 1, 2 and 3 which shall include the elements of design review, analysis, qualification test, acceptance test, inspection, demonstration, and previous experience as listed in ASCE 21 Part 4 Section 14 (System Verification and Demonstration).
- (58) TEMPORARY CERTIFICATE OF OPERATION. A document issued by the Administrator or an Approved AHJ for a conveyance that allows the temporary operation of a conveyance for public use if life safety issues have not been identified following the inspection of the conveyance by a conveyance inspector.
- (59) TYPE OF SERVICE. The passenger or freight classification for the use of an elevator.

Section 1-5 Scope

These Conveyance Regulations apply to all conveyances listed below, as defined in Section 1-4, except as provided in Section 1-5(4).

(1) Hoisting and lowering mechanisms equipped with a car or platform that moves between two or more landings. Such equipment includes, but is not limited to:

- (a) Elevators;
- (b) Platform lifts;

- (c) Personnel hoists; and
 - (d) Dumbwaiters.
- (2) Power-driven stairways and walkways for carrying persons between landings. Such equipment includes, but is not limited to:
- (a) Escalators; and
 - (b) Moving walks.
- (3) Automated People Movers (APM) as defined in ASCE 21.
- (4) The following, as provided in § 9-5.5-104 (2) C.R.S, are not included in the scope of these regulations:
- (a) Material hoists within the scope of ANSI A10.5;
 - (b) Manlifts within the scope of ASME A90.1;
 - (c) Mobile scaffolds, towers, and platforms within the scope of ANSI A92;
 - (d) Powered platforms and equipment for exterior and interior maintenance within the scope of ASME A120.1;
 - (e) Conveyors and related equipment within the scope of ASME B20.1;
 - (f) Cranes, derricks, hoists, hooks, jacks, and slings within the scope of ASME B30.10;
 - (g) Industrial trucks within the scope of ASME B56;
 - (h) Items of portable equipment that are not portable escalators;
 - (i) Tiering or piling machines used to move materials between storage locations that operate entirely within one story;
 - (j) Equipment for feeding or positioning materials at machine tools, printing presses, and other similar equipment;
 - (k) Skip or furnace hoists;
 - (l) Wharf ramps;
 - (m) Railroad car lifts or dumpers;
 - (n) Line jacks, false cars, shafters, moving platforms, and similar equipment used by a certified conveyance contractor for installing a conveyance;
 - (o) Conveyances at facilities regulated by the Mine Safety and Health Administration in the United States Department of Labor, or its successor, pursuant to the "Federal Mine Safety and Health Act of 1977," Pub.L. 91-173, codified at 30 U.S.C. sec. 801 et seq., as amended;
 - (p) Elevators within the facilities of gas or electric utilities that are not accessible to the public;
 - (q) A passenger tramway defined in §25-5-702, C.R.S.;
 - (r) Conveyances in a single-family residence; or
 - (s) Stairway chairlifts as defined in ASME A18.1.

ARTICLE 2 ADMINISTRATION

Section 2-1 Registration

- (1) The conveyance owner shall register the conveyance with the Administrator.
- (2) The registration notice shall include:
 - (a) A completed conveyance registration form, which is provided on the Administrator's website; and
 - (b) The registration fee of \$200 per conveyance.
- (3) Upon the Administrator's approval of the registration, the Administrator will assign a unique number to each conveyance and to the facility at which each conveyance is located. The Administrator will provide a registration data plate to the conveyance owner that shall be affixed near the upper right hand corner of the controller or near the serial number of the conveyance, if a controller is not present.
- (4) Conveyances installed after July 1, 2008, shall be registered with the Administrator before they are placed into service.
- (5) The conveyance owner shall be responsible for notifying the Administrator of any change in owner or management contact information within thirty (30) days of change.

Section 2-2 Adoption of Nationally Recognized Safety Standards

Section 2-2-1 Standard Adoption

- (1) Within this regulation, the Administrator adopts standards and codes as listed below.
 - (a) ASME A17.1 - 2007
 - (b) ASME A18.1 - 2005
 - (c) ASME A17.3 - 2005
 - (d) ASCE 21 Parts 1, 2, 3, and 4
- (2) Nothing in these regulations prohibits a local jurisdiction from adopting and enforcing standards which are more stringent than the minimum requirements included herein.
- (3) Following the initial adoption of standards described in (1) of this Section, the Approved AHJ will remain current in adoption of future standard editions as they are adopted by the Administrator within the timeframe stated in the Memorandum of Agreement (MOA) or as determined by the Administrator.
- (4) The Administrator, in cooperation with the Advisory Board, shall review the latest edition of a standard listed in (1) of this Section and shall determine whether all or any portion of the edition of the standard will be modified or deleted as it pertains to these regulations.
- (5) The standards listed in (1) of this Section may be examined by contacting the Conveyance Section Program Manager at the office of the Administrator located at 633 17th Street, Suite 500 in Denver, Colorado. These standards or materials incorporated in these standards may also be examined at any state publications depository library.

Section 2-3 Periodic Inspections and Tests

Section 2-3-1 Periodic Inspections

- (1) The conveyance owner shall arrange for a periodic inspection of an existing conveyance on an annual frequency. The periodic inspection process and issuance of a Certificate of Operation shall be as follows.
- (2) The conveyance inspector shall:
 - (a) Inspect the conveyance to the applicable code edition as follows:
 - (i) The code edition adopted by the AHJ at the time of original installation and/or alteration or
 - (ii) If no code edition was adopted by the AHJ, the inspector shall inspect to the code edition that was in effect at time of original installation and/or alteration.
 - (b) Conduct the inspection using the latest edition of ASME A17.2 as guidance.
 - (c) Witness all applicable tests in accordance with Section 2-3-2(2).
 - (d) Document results of the inspection on an inspection report form provided on the Administrator's website. All applicable portions of the inspection report shall be completed.
 - (e) Submit the passing inspection report(s) to the conveyance owner.
- (3) The conveyance owner shall submit the passing inspection report(s) and the required fees listed in Section 2-3-1(10) (Certificate of Operation) to the office of the Administrator.
- (4) Following the Administrator's determination that the conveyance is in compliance with the applicable standards listed in Section 2-2-1(1) and the conveyance is registered according to Section 2-1 of these regulations, the Administrator will issue the Certificate of Operation for the conveyance.
- (5) The Administrator may not issue the Certificate of Operation for the conveyance unless all deficiencies identified during previous periodic inspections have been corrected.
- (6) The Administrator may issue a Temporary Certificate of Operation for a conveyance if the temporary operation of the conveyance by the public is necessary and imminent life safety issues have not been identified by a conveyance inspector. The Temporary Certificate of Operation shall be valid for a period as determined by the Administrator but shall not exceed one hundred and eighty (180) days from the date of issuance.
- (7) The Administrator may issue a Construction Certificate of Operation for an elevator that shall be valid for a period of ninety (90) days if the temporary operation of the elevator is necessary to support building construction activities. The operation of the elevator shall conform to the following.
 - (a) The elevator shall be registered with the Administrator prior to the elevator being placed into service.
 - (b) The Administrator or Approved AHJ has issued an installation or alteration permit.
 - (c) A full passing acceptance inspection and a completed conveyance inspection form shall be submitted to the Administrator or Approved AHJ. Fire service operation and fire rating of the hoistway and machine room do not need to be completed for a passing acceptance inspection for a Construction Certificate of Operation.

(d) The following items are required during construction use of the conveyance.

- (i) The elevator shall conform to the requirements of ASME A17.1 2007, Part 5.10.
- (ii) All testing shall be completed and witnessed by a licensed inspector.
- (iii) The elevator shall have a designated attendant for operation.
- (iv) The elevator shall be run on independent service only.
- (v) A means of 2-way communication shall be provided. Cell phones shall not be accepted as a means of 2-way communication.
- (vi) The machine room shall be enclosed and have a lockable door to prevent entry.
- (vii) The hall call stations, if installed, shall be inactive.
- (viii) Penetrations that allow an object to be inserted in the hoistway while the elevator is in motion shall not be allowed.
- (ix) Substantially flush floor surface shall be used in front of the entrances.
- (x) Adequate lighting shall be used in front of the entrances and in the machine room.
- (xi) The Construction Certificate of Operation shall be posted inside the elevator and shall be visible to riders at all times.

(e) If the finished cab interior was not installed when the initial tests were performed for a Construction Certificate of Operation, all tests shall be performed again before an Acceptance Certificate of Operation is issued.

(8) The Construction Certificate of Operation can be renewed following the inspection by a conveyance inspector and approval of the inspection report by the Administrator or Approved AHJ. A Certificate of Operation for public use will be issued by the Administrator or Approved AHJ only after re-inspection and approval of the inspection report by the Administrator.

(9) A private conveyance inspector shall obtain the permission of the conveyance owner to conduct the periodic inspection prior to commencing inspection activities.

(10) Processing fees for installation / alteration permits and inspection reports

Document	Processing Fee
Installation Permit Application	\$300.00
Alteration Permit Application (Major or Minor)	\$150.00
Certificate of Operation	\$30.00

Note: When applying for either an installation or a major alteration permit, the Certificate of Operation fee of \$30.00 should be included with the payment of the installation or major alteration permit application fees for a total of \$330.00 for an Installation permit and \$180.00 for a major alteration permit application.

Section 2-3-2 Periodic and Acceptance Tests

- (1) Tests referred to as Category 1 and Category 5 in ASME A17.1 shall be performed by a conveyance mechanic employed by a conveyance contractor on all existing conveyances, except for an APM, at the following frequencies.
 - (a) Category 1 test shall be performed annually.
 - (b) Category 5 test shall be performed every five (5) years.
 - (c) Acceptance tests shall be completed in accordance with the applicable provisions of ASME A17.1.
- (2) Tests referred to as One-Year and Five-Year in ASME A18.1 shall be performed by a conveyance mechanic employed by a conveyance contractor on all existing platform lifts at the following frequencies.
 - (a) Three (3) years for platform lifts installed outdoors.
 - (b) Five (5) years or as determined by the Administrator for platform lifts installed indoors.
 - (c) Acceptance tests shall be completed in accordance with the applicable provisions of ASME A18.1.
- (3) The results of these tests shall be recorded on the applicable conveyance test report form that is provided on the Administrator's website.
- (4) A conveyance inspector shall witness the performance of the following tests.
 - (a) Acceptance tests for conveyances listed in Section 1-5(1)(2)(3) before the conveyance is placed into service.
 - (i) For new installations, major alterations and substantial alterations, acceptance tests shall be completed in accordance with the applicable provisions of ASME A17.1.
 - (ii) For minor alterations, only the portion or component that was altered needs to be tested and inspected in accordance with the applicable provisions of ASME A17.1.
 - (b) Category 1 tests for conveyances listed in Section 1-5(1)(a) through (c) at least once every five (5) years.
 - (c) Category 5 tests for conveyances listed in Section 1-5(1)(a) through (c) at least once every five (5) years.
 - (d) Category 1 tests for conveyances listed in Section 1-5(2) every year.
- (5) A written Maintenance Control Program shall be in place to maintain the equipment in compliance with ASME A17.1. Maintenance records shall document compliance with ASME A17.1 and shall include the following items.
 - (a) Description of maintenance tasks performed, including dates of service.
 - (b) Description and dates of examinations, tests, adjustments, repairs and replacements.
 - (c) Description and dates of all call backs (trouble calls) or reports that are reported to elevator personnel by any means, including corrective action taken.
 - (d) Written record of the findings on the firefighter's service operation.
- (6) Maintenance records shall be made available to the Administrator, an Approved AHJ, an AHJ, or elevator personnel upon request.

Section 2-4 Alteration, New Installation

Section 2-4-1 Alteration

- (1) The conveyance owner or conveyance contractor who intends to complete an alteration on an existing conveyance shall submit a permit application and fees to the Administrator at least thirty (30) days prior to commencing construction. The permit application shall include the following items.
 - (a) A completed permit application on the form provided on the Administrator's website.
 - (b) One set of specifications and accurately-scaled and fully-dimensioned construction plans. These plans shall include the applicable code edition which shall conform to the edition of the code currently adopted by the Administrator or Approved AHJ, and shall include specifications of interior cab materials or indication on the plans that interior cab work is to be completed by others.
 - (c) Fee payment according to the fees in Section 2-3-1(10).
- (2) Prior to the alteration of the conveyance, the construction plans shall be reviewed and documentation approved by the Administrator. If all documentation in Section 2-4-1(1) is not complete and accurate, the application will not be approved and the applicant will be notified of the deficiencies. If approved, the permit issued by the Administrator shall be displayed in the conveyance control room or control space associated with the permitted conveyance.
- (3) Alteration activities shall commence within one hundred and eighty (180) days from the date of issuance of the permit from the office of the Administrator.
- (4) Alteration activities regarding elevators which require a permit application to be submitted to the Administrator are items listed in ASME A17.1 and include the following:
 - (a) Minor Alteration Types
 - (i) Addition of power operation to door systems.
 - (ii) Changes to the guide rails, supports, or fastenings.
 - (iii) Changes to car or counterweight buffers where the load rating has been altered.
 - (iv) Increase or decrease of the dead weight of the car that is sufficient to increase or decrease the sum of the dead weight and rated load, as originally installed, by more than 5%. Where this alteration increases the original building design reactions by more than 5%, the permit application shall also include documentation that the adequacy of the affected building structure has been verified by a licensed professional engineer.
 - (v) Installation of new car or counterweight safeties or alteration to existing safeties. If new car safeties are added to an existing conveyance, the permit application shall also include documentation that the adequacy of the affected building structure, guide rails, supports, and fastenings have been verified by a licensed professional engineer.
 - (vi) Installation (not to include a "Replacement" as defined in these regulations) or alteration to a speed governor.
 - (vii) Alteration to the terminal stopping device.
 - (viii) Alteration to the standby or emergency power system.

- (ix) Alteration to firefighters' emergency operation.
- (x) Addition of a hoistway entrance.
- (xi) Controller replacement for a hoistway door car door, or car gate.
- (xii) Increase in working pressure by more than 5%.
- (xiii) Change to or replacement of a plunger or cylinder (to include the installation of a plunger gripper).
- (xiv) Replacement of an existing control valve with a valve of another type.
- (xv) Replacement of a hydraulic tank.
- (xvi) Replacement of a hydraulic tank and valve (power unit).

(b) Major Alteration Types

- (i) Increase of rated load.
- (ii) Installation or alteration to driving machine, driving machine brake or driving machine sheaves. This includes moving a driving machine.
- (iii) Increase to the rated speed.
- (iv) Increase or decrease in rise.
- (v) Change in the type of service of an elevator.
- (vi) Changes in a freight elevator to allow passengers.
- (vii) Installation or replacement of the controller.
- (viii) Change in type of motion or operation control.
- (ix) Any alteration to a dumbwaiter, material lift or platform lift.

(5) Alteration activities regarding escalators and moving walks which require a permit application to be submitted to the Administrator are listed below.

(a) Minor Alteration Types

- (i) Installation of skirt deflector device. Step/Skirt Indexing testing is required to be performed if the test indicated that the escalator was out of conformance if a skirt deflector had been installed.
- (ii) Alteration to handrails or handrail system.
- (iii) Alterations that involve the trusses, girders or supporting structures.
- (iv) Any alteration to or addition of operating and/or safety devices.
- (v) Alteration to or addition to lighting, access or electrical work.
- (vi) Alteration to entrance or egress.

(b) Major Alteration Types

- (i) Change in angle of inclination or geometry of balustrades.

- (ii) Alteration to step system or treadway system.
 - (iii) Alteration to the step wheel tracks or track system.
 - (iv) Changes in rated load or speed.
 - (v) Installation or replacement of the controller.
- (6) The Administrator or Approved AHJ may allow a conveyance contractor to perform emergency work on a conveyance that normally requires a permit if the alteration activity complies with Section 1-4(8).
- (7) Following the alteration of a conveyance, where a permit is required from the Administrator or the Approved AHJ according to Section 2-4-1, the conveyance owner shall arrange for an Acceptance Inspection of the conveyance in accordance with Section 2-2-1(a) or Section 2-2-1(b), if applicable,. The responsibility for hiring a conveyance inspector to conduct Acceptance and Periodic Inspections resides with the conveyance owner. The conveyance owner may arrange for the inspection(s) by authorizing a general contractor or conveyance contractor to select, contract with, or hire a conveyance inspector who is not affiliated with the conveyance owner, general contractor, or conveyance contractor. The acceptance inspection process and issuance of a Certificate of Operation shall be in accordance with Section 2-3-1.

Section 2-4-1-1 Elevator Cab Interiors

- (1) A conveyance owner may conduct the following type of work within the interior of an elevator cab without notification to or obtaining a permit from the Administrator.
- (a) Change light lamps, not to include replacement of the luminaire (fixture).
 - (b) Repair or Refinish existing materials.
- (2) A conveyance owner or a licensed conveyance contractor shall first obtain a permit from the Administrator as described in Section 2-4-1 for work within an elevator cab that involves the installation or alteration of cab components. A licensed conveyance mechanic shall conduct this work or direct the execution of this work completed by a conveyance helper or apprentice to ensure the safety of the conveyance.

Section 2-4-2 New Installation

- (1) The Conveyance Owner or Conveyance Contractor who intends to install a conveyance shall submit a permit application and fees to the Administrator at least thirty (30) days prior to commencing construction. The permit application will include the following:
- (a) A completed permit application on the form provided on the Administrator's website.
 - (b) One set of specifications and accurately-scaled and fully-dimensioned construction plans. These plans shall include the applicable code edition which shall conform to the edition of the code currently adopted by the Administrator or Approved AHJ, and shall include specifications of interior cab materials or indication on the plans that interior cab work is to be completed by others.
 - (c) Fee payment according to the fees in Section 2-3-1(10).
- (2) Prior to the installation of the conveyance, the construction plans shall be reviewed and documentation approved by the Administrator. If all documentation in Section 2-4-2(1) is not complete and accurate, the application will not be approved and the applicant will be notified of the deficiencies. If approved, the permit issued by the Administrator shall be displayed in the conveyance control room or control space associated with the permitted conveyance.
- (3) Installation activities shall commence within one (1) year from the date of receipt of the permit application at the office of the Administrator.

- (4) Following the installation, where a permit is required from the Administrator or Approved AHJ according to Section 2-4-2, the conveyance owner shall arrange for an Acceptance Inspection of the conveyance in accordance with Section 2-2-1(a) or Section 2-2-1(b), if applicable. The responsibility for hiring a conveyance inspector to conduct Acceptance and Periodic Inspections resides with the conveyance owner. The conveyance owner may arrange for the inspection(s) by authorizing a general contractor or conveyance contractor to select, contract with, or hire a conveyance inspector who is not affiliated with the conveyance owner, general contractor, or conveyance contractor. The acceptance inspection process and issuance of a Certificate of Operation shall be in accordance with Section 2-3-1.

Section 2-5 Automated People Movers

- (1) The conveyance contractor who intends to install an APM or perform an APM alteration shall conform to Section 2-4-1 or 2-4-2.
- (2) The conveyance owner or managing agent where the APM system is located shall arrange for inspection of verification testing of the installed or altered APM system by a conveyance inspector and shall submit the following items to the Administrator.
- (a) Report documenting System Verification completed at the factory.
 - (b) Report documenting on-site System Verification.
 - (c) Certificate of Substantial Completion.
- (3) A conveyance inspector shall witness the testing of the APM system as defined in ASCE 21 Part 4 Section 16.2 (Annual Internal Audit Responsibilities) on an annual frequency. The results of the testing shall be submitted to the Administrator.
- (4) Following the Administrator's determination that the documentation listed in (2) or (3) of this Section indicates that the conveyance conforms to standards listed in Section 2-2-1(d), the Administrator will issue the Certificate of Operation for the APM system.

Section 2-6 Accident Reporting

- (1) Any accident involving a conveyance that caused or could have caused injury to a person should be investigated by the conveyance owner or managing agent to determine if maintenance or repairs are needed to ensure proper operation of the conveyance and that the conveyance is in compliance with these regulations.
- (2) Following any accident involving a conveyance that causes injury to any person, the conveyance owner or managing agent shall.
- (a) Conduct a preliminary investigation to determine whether the accident was the result of a component of the conveyance that malfunctioned or was not in compliance with these regulations.
 - (b) Report this information to the Administrator or Approved AHJ via a phone call, email or facsimile within 24 hours of the accident. This report shall include the following items.
 - (i) Caller's first and last name, phone number, and organization.
 - (ii) Accident location with conveyance description, facility name, facility address, and conveyance registration number assigned by the Administrator.
 - (iii) Description of the accident and the preliminary determination of whether the accident was a result of a component of the conveyance that malfunctioned or is not in compliance with these regulations.

(3) Based on results of the preliminary accident investigation, the following activities shall be conducted.

- (a) If the accident is not the result of the malfunction of a component of the conveyance and the conveyance is in compliance with these regulations, the conveyance owner may make the conveyance accessible to the public.
- (b) If the accident is the result of a component of the conveyance that malfunctioned or is not in compliance with these regulations, the Administrator or Approved AHJ will suspend or revoke the Certificate of Operation for the conveyance and the conveyance owner shall complete the following.
 - (i) Immediately shut down the conveyance and arrange for an inspection of the conveyance to verify the cause of the accident prior to a conveyance contractor performing any modifications or repairs to the conveyance.
 - (ii) Arrange for a full Inspection of the conveyance following any modifications or repairs.
 - (iii) Complete and submit to the Administrator or Approved AHJ an accident investigation report, using the form that is provided on the Administrator's website, within 72 hours of the accident. This report shall include a description of the actions taken to investigate the cause of the accident, corrective actions taken to repair and test the performance of the conveyance and any inspection reports.
 - (iv) The conveyance shall not be made accessible to the public without a current Certificate of Operation issued by the Administrator or Approved AHJ.

(4) Following the review of the preliminary investigation information in (2) of this Section, the Administrator or Approved AHJ will notify the conveyance owner or conveyance contractor if the Certificate of Operation will be suspended or revoked and activities listed in (3)(b) of this Section are to be completed.

(5) When the Approved AHJ becomes aware of an accident associated with a conveyance, the Approved AHJ will immediately report this accident to the Administrator.

Section 2-7 Implementation of Adopted Standards for Existing Conveyances

(1) All conveyances installed prior to July 1, 2008 are exempt from complying with ASME A17.3 - 2005 unless one of the following conditions exists:

- (a) Substantial Alteration of a conveyance, or
- (b) An elevator presents a Material Risk.

Any alteration caused by the conditions listed above shall conform to ASME A17.1 - 2007.

(2) Material Risk related to Firefighters' Service is present except if any of the following conditions apply:

- (a) The elevator complies with ASME A17.1 - 1981 Rules 211.1 and 211.3, or
- (b) The elevator travels less than 75 feet above or below the emergency personnel access, or
- (c) The building is equipped with an automatic sprinkling system according to the NFPA 13.

Any elevator that does not meet one or more of the conditions listed above shall comply with Firefighters' Service requirements as described in the currently adopted version of ASME A17.1 by January 1, 2015. An AHJ may require and may enforce more stringent standards than these minimum requirements regarding Firefighters' Service, including full compliance with ASME A17.3. Contact the AHJ for local requirements and enforcement.

(3) Regarding Door Restrictors, the following shall apply.

- (a) Door Restrictors shall be installed and operational on all elevators installed on or after January 1, 1990.
- (b) Where there is evidence that door restrictors have been previously installed and not properly maintained, regardless of original installation date, the door restrictors shall be repaired to operate as intended.
- (c) Following review of additional information regarding door restrictors, the Administrator will determine whether door restrictors shall be required on elevators installed prior to January 1, 1990.

(4) The Administrator will allow continued operation of a Hydraulic Elevator that has a hydraulic cylinder buried in the ground and is not provided with a safety bulkhead (typically installed prior to 1973) after January 1, 2012 if the conveyance owner completes one of the following actions in conformance with ASME A17.3 – 2005.

- (a) The hydraulic cylinder shall be provided with a safety bulkhead, or
- (b) The elevator shall be provided with car safeties conforming to ASME A17.1 Section 3.17.1, and guide rails, guide-rail supports, and fastenings conforming to ASME A17.1 Section 3.23.1, or
- (c) The elevator shall be provided with a plunger gripper that shall grip the plunger when the applicable maximum governor tripping speed is achieved.

The Administrator may approve an extension to the due date listed in this subsection until December 31, 2013.

(5) The Administrator will allow continued operation of a Private Residence Conveyance installed in any building other than in a single-family residence if the following conditions are met:

- (a) The conveyance was installed prior to January 1, 2008.
- (b) The conveyance is registered with the Administrator on a form that is provided on the Administrator's website.
- (c) The conveyance shall conform to all alteration, inspection, and testing requirements as determined by the Administrator.

(6) The Administrator will only require a code data plate, as required by ASME A17.1, on an existing conveyance if the conveyance was installed on or after July 1, 1997. For conveyances installed prior to July 1, 1997, the absence of a code data plate is not a violation of these regulations, the edition of ASME A17.1 that will be referenced for inspection purposes will be one of the following:

- (a) The edition in effect, or adopted by a local jurisdiction, on the date of installation.
- (b) The edition listed on an existing code data plate.

Section 2-8 Implementation of Adopted Standards in New Conveyances

(1) The Administrator will not require that a sump pit or sump pump be installed in the hoistway pit of a new Hydraulic Elevator if:

- (a) The total travel of the elevator is less than 25 feet, and
- (b) The hoistway pit is less than 67 inches deep.

(2) After January 1, 2008, the Administrator shall not allow the installation of a Private Residence Conveyance in any commercial setting where the public or multiple private residences have access to the conveyance.

Section 2-9 Shut-down of a Dangerous Conveyance

- (1) If a conveyance inspector determines that a conveyance poses imminent danger to passengers or inspection/maintenance personnel or equipment, the conveyance inspector shall immediately notify the Administrator or the Approved AHJ and the conveyance owner of the condition of the conveyance and shall follow the procedures of the Approved AHJ or as listed in policy on the Administrator's website to shut down the dangerous conveyance.
- (2) If a conveyance mechanic determines that a conveyance poses imminent danger to passengers or inspection/maintenance personnel, the conveyance mechanic shall notify his/her employing conveyance contractor. Upon this notification, the conveyance contractor shall immediately notify the Administrator or the Approved AHJ and the conveyance owner of the condition of the conveyance and follow the procedures of the Approved AHJ or as listed in policy on the Administrator's website to shut down the dangerous conveyance.
- (3) Any conveyance that has been shut down shall not be placed back into service without first obtaining approval from the Administrator or the Approved AHJ.
- (4) Upon shut-down of a conveyance, the conveyance owner shall have the necessary repairs completed within three (3) months from the date of shut-down or place the conveyance in either a Dormant or Removed from Service state.

Section 2-10 Dormant

- (1) A conveyance is considered dormant based on the following conditions.
 - (a) The Traction (electric) elevator car is parked at the top of the hoistway and the counterweights are parked at the bottom of the hoistway or the hydraulic elevator is parked at the bottom of the hoistway.
 - (i) The hoistway doors are latched in the closed position; and
 - (ii) The fuses are removed from the main line disconnect (if applicable); and
 - (iii) The mainline disconnect is locked in the "off" position with a wire seal or a red tag provided by the Administrator is placed on the disconnect switch.
 - (b) Escalators/Moving Walks are considered dormant based on the following conditions.
 - (i) The mainline disconnect is locked in the "off" position with a wire seal or a red tag provided by the Administrator is placed on the disconnect switch; and
 - (ii) Entrances are permanently barricaded.
- (2) A conveyance shall not be made dormant for more than five (5) years. At the end of five (5) years the conveyance owner shall obtain a valid certificate of operation or remove the conveyance from operation pursuant Section 2-11. To place a dormant conveyance back in service the following conditions shall be met.
 - (a) If the conveyance has been dormant for six (6) months or less, all applicable tests are current, a conveyance inspector has performed a periodic inspection in accordance with Section 2-3-1 and all deficiencies have been corrected, the conveyance may obtain a valid certificate of operation from the Administrator or Approved AHJ.
 - (b) If the conveyance has been dormant for six (6) months or more, all periodic inspections and tests have been completed in accordance with Sections 2-3-1 and 2-3-2 and all deficiencies have been corrected, the conveyance may obtain a valid certificate of operation from the Administrator or Approved AHJ.
 - (c) A temporary certificate of operation will not be issued when placing a dormant conveyance back in operation.

Section 2-11 Removed From Service

(1) A conveyance is removed from service per the following items from ASME A17.1 Section 8.11.1.4.

(a) Traction (electric) elevator, dumbwaiters and material lifts

- (i) The mainline disconnect is locked in the "off" position with a wire seal or a red tag provided by the Administrator is placed on the disconnect switch; and
- (ii) Suspension ropes are removed; and
- (iii) Car and counterweights are parked at the bottom of the hoistway; and
- (iv) The hoistway doors are permanently barricaded or sealed in the closed position on the hoistway side. The lowest landing hoistway door may be sealed on the lobby side.

(b) Hydraulic elevators

- (i) The mainline disconnect is locked in the "off" position with a wire seal or a red tag provided by the Administrator is placed on the disconnect switch; and
- (ii) The hydraulic elevator car is parked at the bottom of the hoistway; and
- (iii) If provided, suspension means are removed and counterweight is parked at the bottom of the hoistway; and
- (iv) Pressure piping has been disassembled and a section removed from the premises; and
- (v) The hoistway doors are permanently barricaded or sealed in the closed position on the hoistway side. The lowest landing hoistway door may be sealed on the lobby side.

(c) Escalators/Moving Walks

- (i) The mainline disconnect is locked in the "off" position with a wire seal or a red tag provided by the Administrator is placed on the disconnect switch; and
- (ii) Entrances are permanently barricaded.

(2) If a conveyance owner has removed a conveyance from service and intends to place the conveyance back into operation, the conveyance shall conform to all of the provisions of the applicable standard listed in Section 2-2-1.

Section 2-12 Alternate Materials and Methods Request

(1) The Administrator or Approved AHJ may grant the use of alternate materials and methods on a case-specific basis, for the implementation requirements of the adopted codes or standards listed in Section 2-2-1.

(2) Requests for the use of alternate materials and methods where a conveyance is not located within the area of an Approved AHJ shall be submitted to the Administrator and be completed on the alternate materials and methods request form provided on the Administrator's website. This request will not be reviewed unless the appropriate form and required documentation are complete.

(3) A submitted Alternate Materials and Methods Request shall not relieve a person from complying with the applicable standards adopted in these regulations unless the Administrator or the Approved AHJ expressly approve the use of alternate materials and methods.

ARTICLE 3 AUTHORITY HAVING JURISDICTION

Section 3-1 Authority Having Jurisdiction Requirements

- (1) In lieu of the Administrator regulating activities as described in Section 2-2, a municipality or county (an authority having jurisdiction), or any agent thereof, may enter into a memorandum of agreement (MOA) with the Administrator under which the AHJ will operate a local program of conveyance regulation of all conveyances in the territory of the AHJ, provided that the local program has standards that are equal to or greater than those adopted in these regulations.
- (2) If an MOA as described above is executed, the AHJ will become an Approved AHJ and will be responsible for enforcing the applicable provisions of these regulations.
- (3) The Approved AHJ will submit to the Administrator general information regarding new or existing conveyances as determined by the Administrator and listed in the MOA. This information will be reported annually no later than January 31st following the previous twelve-month reporting period.
- (4) The Approved AHJ may set fees and collect or contract the collection of these fees to offset the cost of conducting activities described in Section 2-3 for conveyances located within the Approved AHJ territory. Fee amounts will be determined by the Approved AHJ or agreed upon by the Approved AHJ and the contracted inspection organization.
- (5) Inspections of public school conveyances in Approved AHJ territories shall be conducted by the Approved AHJ or, with prior consent of the Administrator, by a Conveyance Inspector contracted by the public school district. The Certificate of Operation for a passing inspection will be issued by the Approved AHJ if the Approved AHJ conducts the inspection or by the Administrator if the inspection is conducted by a conveyance inspector hired by the public school district. The Approved AHJ shall notify the public school district in writing that the inspection may be conducted by a conveyance inspector for the public school district, and a copy of this notification shall immediately be submitted to the Administrator.

ARTICLE 4 LICENSING

Section 4-1 Licensing Qualifications

This section describes the requirements for the licensing of conveyance contractors, conveyance mechanics and conveyance inspectors. Each license allows the applicable licensee to perform installation, alteration, replacement, maintenance, removal, dismantling, or inspection activities of conveyances as identified in Section 1-5 and as listed on the license. The Administrator may request documentation in addition to that described in the following sections to verify the accuracy of information provided with a license application.

Licensing fees for Conveyance Mechanics, Temporary Mechanics, Contractors and Inspectors.

License Type	License Fee
Mechanic	\$125.00
Temporary Mechanic	\$25.00
Conveyance Contractor	\$500.00
Inspector	\$175.00
Replacement License	\$25.00

Section 4-1-1 Conveyance Mechanic

- (1) The Administrator may issue a conveyance mechanic license to the applicant if the applicant has provided documentation required in this Section. The conveyance mechanic license will indicate the type of conveyance on which the licensee is allowed to conduct work per these regulations. The types of conveyance mechanic licenses are as follows.
 - (a) Type 1: All conveyances with the exception of APM, which would include elevators, escalators, personnel hoists, moving walkways, platform lifts and dumbwaiters, as described in ASME A17.1 and A18.1.
 - (b) Type 2: Platform lifts only, as described in ASME A18.1.
 - (c) Type 3: APM as described in ASCE 21.
 - (d) Type 4: All conveyances listed in (1)(a) and (c) of this Section.
 - (e) Type 5: All conveyances listed in (1)(b) and (c) of this Section.
- (2) A person applying for a conveyance mechanic license shall submit to the Administrator a completed conveyance mechanic license application using the form that is provided on the Administrator's website, the license fee, listed in Section 4-1 and documentation that, as determined by the Administrator, indicates the applicant is qualified under one of the following scenarios.
 - (a) The applicant submits documentation that proves that the applicant has successfully completed a conveyance mechanic training program. This program will be subject to audit by the Administrator. Evaluation criteria for Administrator audit may include, but is not limited to, review of course materials, required classroom and field hours, classroom activities, and test materials and procedures. Based on evaluation of the conveyance mechanic license training curriculum, the Administrator may set limitations on the license issued. To be approved, the training program shall:

- (i) Be registered with the United States Department of Labor Office of Apprenticeship (USDOL) under specific apprentice occupation categories assigned by the USDOL to license types listed in (1) of this Section, and shall include classroom and field training according to the USDOL requirements on the actual equipment listed in the license types, or
 - (ii) Be approved by the Administrator. Applicants seeking licensure under programs approved solely by the Administrator shall submit to the Administrator an executed affidavit on a form that is provided by the Administrator and signed by the applicant which states that during the applicant's participation in the approved program, the applicant's work experience consisted of at least 1,700 hours per year performing activities listed in the work process schedule attached to the affidavit.
- (b) In lieu of qualifying pursuant to (2)(a) of this Section, the applicant may qualify if the applicant submits to the Administrator one of the following types of documentation.
- (i) Documentation that the applicant holds a current and valid license from another state whose standards, as determined by the Administrator, meet or exceed those of these regulations. This documentation will consist of:
 - (A) A copy of the license;
 - (B) Contact name, phone number and the issuing department of the state in which the license was obtained.
 - (ii) Documentation that the applicant has obtained both of the following items.
 - (A) Three (3) years of work experience as a conveyance mechanic on non-residential conveyances without supervision. One (1) year of work experience will equal 1,700 hours. Documentation of work experience will consist of:
 - (I) A statement on the employer's letterhead and signed by the personnel Administrator or other person of authority affirming that the condition in (A) is true; and,
 - (II) Personnel records that indicate the timeframe and listing of hours for completion of the experience described in (A); or
 - (III) An affidavit on a form that is provided by the Administrator and signed by the applicant which states that the work experience indicated in personnel records submitted consists of unsupervised mechanic activities listed in the work process schedule attached to the affidavit.
 - (B) A passing score on an examination provided by the Administrator, or a conveyance contractor thereof, on the codes and standards that relate to the type of conveyance mechanic license applied for, as described in (1) of this Section.
- (3) The Administrator may add to the issued license an exclusion for performing work on specific conveyance equipment if the applicant has not provided to the Administrator proof of adequate training on this equipment as included in one of the licensing application methods listed in (2) of this Section.
- (4) A person who obtains a conveyance mechanic license shall also complete eight (8) hours of continuing education that has been approved by the Administrator every two (2) years.
- (5) If a Type 1 or 4 licensee is approved to perform work on escalators and moving walkways, the required continuing education shall also include training on this equipment in order to continue to be qualified to perform work on this equipment.

- (6) Following review of the application, the Administrator will notify the applicant of the approval or disapproval of the application. If the applicant is approved, the notification will include the conveyance mechanic license number, the type of conveyance on which the conveyance mechanic may perform work, a license card, and a payment receipt. If the applicant is not approved, the notification will include a description of the deficiencies in the application.
- (7) The conveyance mechanic license issued by the Administrator shall be valid for one (1) year. The Administrator may renew a license, provided the applicant submits the following:
 - (a) Completed conveyance mechanic license application form.
 - (b) License renewal fee, listed in Section 4-1; and
 - (c) Copy of certification indicating that the applicant completed continuing education required in this Section.

Section 4-1-2 Emergency and Temporary Conveyance Mechanic

- (1) When an emergency exists, as defined in § 9-5.5-108 (2) C.R.S., the Administrator may issue an emergency conveyance mechanic license. This license will be issued to a person who, based on the judgment of a conveyance contractor, has acceptable documented experience and education to perform work on specific types of conveyances identified in Section 1-5. Within five (5) business days after commencing work, the applicant will complete and submit the conveyance mechanic license application to the Administrator. There will be no license fee for an emergency conveyance mechanic license.
- (2) Upon notification to the Administrator from a conveyance contractor that there are no mechanics available to perform conveyance work, the Administrator may issue a temporary conveyance mechanic license. This license will be issued to a person who is enrolled in and progressing through a mechanic training program as described in Section 3-1-1 (2)(a), and based on the judgment of a conveyance contractor, has acceptable documented experience and education to perform work on specific types of conveyances identified in Section 3-1-1(1). At least five(5) working days prior to commencing work, the conveyance contractor who will employ the temporary conveyance mechanic shall submit the following documentation to the Administrator.
 - (a) A completed temporary conveyance mechanic license application on the form that is provided on the Administrator's website.
 - (b) The license fee, listed in Section 4-1.
- (3) Following review of the application, the Administrator will notify the conveyance contractor and temporary conveyance mechanic applicant of the approval or disapproval of the application. If the applicant is approved, the notification will include the temporary conveyance mechanic license number and the type of conveyance on which the temporary conveyance mechanic may perform work. If the applicant is not approved, the notification will describe the deficiencies in the application.
- (4) The emergency conveyance mechanic license will be valid for sixty (60) days and the temporary conveyance mechanic license will be valid for thirty (30) days. The Administrator may renew a temporary mechanic license, provided the conveyance contractor submits the license fee and notification to the Administrator that renewal is requested for a license issued the prior month. This documentation may include multiple license renewal requests for several conveyance mechanics.

Section 4-1-3 Conveyance Contractor

- (1) The Administrator will consider issuing a conveyance contractor license to a company if the applicant submits to the Administrator a completed conveyance contractor license application form provided on the Administrator's website, the license fee, listed in Section 4-1 and:
 - (a) Documentation that one of the following conditions exists:
 - (i) The applicant employs, at a minimum, one (1) conveyance mechanic licensed with the Administrator. The employment of temporary or emergency conveyance mechanics does not satisfy this requirement. This documentation shall consist of a statement on the employer's letterhead that is signed by the personnel Administrator or other person of authority affirming that this requirement has been met.
 - (ii) The applicant holds a current and valid license from another state whose standards are substantially similar to those of these regulations. This documentation will consist of:
 - (A) A copy of the license; and,
 - (B) The current contact name, phone number and the issuing department of the state in which the license was obtained.
 - (b) A certificate of insurance, declaration page or insurance policy indicating that the applying company possesses insurance coverage according to § 9-5.5-115 (1) C.R.S.
- (2) The conveyance contractor license issued by the Administrator shall be valid for one (1) year. The Administrator may renew a license, provided the applicant submits the following.
 - (a) Completed conveyance contractor license application form.
 - (b) Documentation as described in 4-1-3(1)(i) of this Section.
 - (c) A certificate of insurance, declaration page or insurance policy indicating that the applying company possesses insurance coverage according to § 9-5.5-115 (1) C.R.S.
 - (d) License renewal fee, listed in Section 4-1.

Section 4-1-4 Conveyance Inspector

- (1) The Administrator may issue a conveyance inspector license to the applicant if the applicant has provided documentation required in this Section. The conveyance inspector license will indicate the type of conveyance for which the licensee is allowed to inspect per these regulations. The types of conveyance inspector licenses are as follows.
 - (a) Type 1: All conveyances with the exception of APM, which would include elevators, escalators, personnel hoists, moving walkways, platform lifts, stairway chairlifts and dumbwaiters, as described in ASME A17.1 and A18.1.
 - (b) Type 2: APM as defined in ASCE 21.
 - (c) Type 3: All conveyances listed in (a) and (b) of this Section.
- (2) A person applying for a conveyance inspector license shall submit to the Administrator a completed conveyance inspector license application using the form that is provided on the Administrator's website, the license fee, listed in Section 4-1 and documentation that, as determined by the Administrator, indicates that the applicant is qualified under one of the following scenarios.

(a) Private conveyance inspector.

- (i) To obtain a Type 1 conveyance inspector license, the applicant shall submit to the Administrator documentation that, as determined by the Administrator, proves that:
 - (A) The applicant is certified to inspect conveyances by a nationally recognized conveyance association as determined by the Administrator, which will consist of a copy of the front and back of a current certification card from the issuing association; or
 - (B) The applicant qualifies as Elevator Personnel as defined in ASME A17.1 and the applicant has been approved to take the certification exam offered by a nationally recognized conveyance association as determined by the Administrator. The applicant shall attend the first available exam offered by a nationally recognized conveyance association and obtain certification within 6 (six) months of licensure. If the applicant fails the exam, the Administrator may suspend the applicant's license until proof of certification is submitted to the Administrator.
- (ii) To obtain a Type 2 conveyance inspector license, the applicant will submit to the Administrator documentation that, as determined by the Administrator, indicates that the applicant.
 - (A) Possesses a current Professional Engineer license, or
 - (B) Has, at a minimum, three (3) years of experience participating in APM inspections and audits.

(b) AHJ Conveyance Inspector or AHJ-appointed Conveyance Inspector.

- (i) To obtain a Type 1 conveyance inspector license, the applicant shall submit to the Administrator documentation that proves the applicant is certified to inspect conveyances by a nationally recognized conveyance association as determined by the Administrator, which will consist of a copy of the front and back of a current certification card from the issuing association; or
- (ii) The applicant submits the following items to the Administrator.
 - (A) Documentation that the applicant intends to obtain certification within 1 (one) year from licensure, and
 - (B) Agrees to complete at least eight (8) weeks of conveyance inspection activities under the direct supervision of a conveyance inspector prior to conducting conveyance inspection activities without direct supervision. During this supervised period, the licensee shall be trained on the inspection of any type of conveyance which the licensee will encounter in the inspection territory. Documentation shall be submitted to and approved by the Administrator which indicates that the applicant has received the required supervision prior to conducting unsupervised conveyance inspection activities.

(3) If a licensee qualifies by (2)(a)(i)(B) or (2)(b)(ii) of this Section and the licensee fails to obtain certification as required, the Administrator may suspend or revoke the licensee's conveyance inspector license.

(4) Beginning January 1, 2014, all new and renewing applicants shall successfully pass a test that will be administered by the Administrator on these Regulations, Policies and Guidance Documents which are available on the Administrators website.

(a) A new applicant shall successfully pass the test administered by the Administrator before a license will be issued.

- (b) A current licensee renewing their conveyance license may take this test up to one hundred and eighty (180) days prior to the expiration date listed on the license issued by the Administrator.
 - (c) All applicants shall obtain a passing score of not less than 90% to receive a new or renewal license from the Administrator.
- (5) All applicants shall obtain a passing score of not less than 90% on these Regulations, Policies, and Guidance Documents administered by the Administrator every three (3) years.
- (6) Any private conveyance inspector or AHJ-appointed conveyance inspector applicant shall also submit to the Administrator a certificate of insurance or insurance policy indicating the applicant possesses insurance coverage according to § 9-5.5-115 (2) C.R.S.
- (7) An AHJ conveyance inspector applicant is exempt from the requirement to provide insurance, pursuant to § 9-5.5-115 (2) C.R.S., while performing Approved AHJ official duties.
- (8) If a licensee receives a Type 1 license and will be conducting inspection activities on escalators or moving walks, the licensee shall complete at least eight (8) hours of inspection training on this equipment prior to conducting unsupervised inspection activities on this equipment. This training shall consist of direct supervision under a conveyance inspector who has at least eight (8) hours of experience inspecting, installing or maintaining this type of equipment. This requirement shall not apply to a licensee who has received training on this type of equipment through an Administrator-approved training program.
- (9) The conveyance inspector license issued by the Administrator shall be valid for one (1) year. The Administrator may renew a license, provided the applicant submits the following.
- (a) Completed conveyance inspector license application form.
 - (b) Documentation that the applicant is certified by a nationally recognized conveyance association.
 - (c) A certificate of insurance, declaration page or insurance policy indicating that the applicant possesses insurance coverage according to § 9-5.5-115 (2) C.R.S.
 - (c) License renewal fee, listed in Section 4-1.

ARTICLE 5 ENFORCEMENT

Section 5-1 Enforcement Program

The Administrator provides these regulations to assist the regulated community with maintaining safe and proper operation of regulated conveyances. When a regulated conveyance or licensed conveyance mechanic, contractor or inspector is found to be out of compliance with these regulations, the Administrator will pursue enforcement actions against the regulated party. The enforcement process will include requiring the regulated party to make repairs and/or upgrades, perform system tests, keep records, maintain current licenses, and other actions to bring the conveyance or licensee back into compliance. During and following the enforcement process, the Administrator will continue to assist the regulated party to remain in compliance. The enforcement process may include monetary penalties up to one thousand dollars (\$1,000) per conveyance per day of violation according to statute §8-20-104 C.R.S. if the enforcement obligations are not implemented according to the required schedule.

Section 5-1-1 Notice of Violation

- (1) A Notice of Violation (NOV) may be issued when a conveyance is found to be out of compliance with these regulations and/or statutes §8-20 and 9-5.5 C.R.S. A NOV may also be issued if the licensed contractor, mechanic or inspector has violated any part of these regulations or any applicable statutes.
- (2) Within ten (10) working days after an NOV has been issued, the person issued the NOV may file a written request with the Administrator for an informal conference regarding the NOV. If the person issued the NOV does not request an informal conference within this time-frame, all provisions of the NOV shall become final and not subject to further discussion. If the NOV is not resolved within the prescribed time frame, the Administrator may then seek judicial enforcement of the NOV, or an Enforcement Order may be issued.

Section 5-1-2 Enforcement Order

- (1) An Enforcement Order may be issued when the violations included within an NOV are not resolved within the prescribed time frame. The Enforcement Order may include increased fines up to one thousand dollars (\$1,000.00) per conveyance for each day of violation. In addition, the Enforcement Order may include shut-down of the conveyance, suspension and/or revocation of a conveyance license.
- (2) Within ten (10) working days after an Enforcement Order has been issued, the owner/operator may file a written request with the Executive Director for an informal conference regarding the Enforcement Order. If the owner/operator does not request an informal conference within this time-frame, all provisions of the Enforcement Order shall become final and not subject to further discussion. If the Enforcement Order is not resolved within the prescribed time frame, the Administrator may then seek judicial enforcement of the Enforcement Order.

Section 5-1-3 Informal Conference

- (1) Upon receipt of the request, the Administrator shall provide the owner/operator with notice of the date, time and place of the informal conference. The Administrator shall preside at the informal conference, during which the owner/operator and Division personnel may present information and arguments regarding the allegations and requirements of the NOV or the Enforcement Order.
- (2) Within twenty (20) days after the informal conference, the Administrator shall issue a Settlement Agreement in which the violations from the NOV and/or Enforcement Order will be upheld, modified or stricken. The Settlement Agreement will include a schedule of required activity for resolution of the violations. If the terms and/or schedule in the Settlement Agreement are not satisfied, either an Enforcement Order will be issued, re-issued, or the Administrator may seek judicial enforcement.

Section 5-1-4 License Review Board

The Administrator shall establish a License Review Board that shall consist of members of the Conveyance Advisory Board. This Board will make recommendations to the Administrator on matters concerning suspension or revocation of conveyance licenses.
