KEYS TO COMPLIANCE

Agenda Petroleum

August 9, 2022 | Arvada Center | Room A-B

8:00 - 8:15 am

Welcome

Petroleum Program: Session One

8:15 - 10:00 am

Industry Overview, OPS Goals, COSTIS-IA Demo and Resources

This session will provide insight into current storage tank industry trends, OPS direction, and a demonstration of our new tanks database, COSTIS-IA.

Storage Tank Requirements

Learn about the OPS tank installation permitting and upgrade processes and release detection equipment inspections.

10:00 - 10:30 am

Morning Break

Petroleum Program: Session Two

10:30 am - Noon

Common Compliance Issues

This session will focus on OPS expectations for inspections performed by tank owners in an effort to raise awareness of common issues.

Enforcement

Reviewing the steps of the OPS enforcement process, and how to stay out of it.

Dispenser Security

This session will provide a brief overview of the OPS Weights and Measures program, highlighting dispenser security and upcoming requirements.

Noon - 1:30 pm

Lunch

Petroleum Program: Session Three

1:30 - 2:00 pm

Policy 29

Learn the qualifications for and necessary requirements for a Policy 29 application.

PREQ Requirements and Signature Authority

Gain an understanding of the new PREQ process and review requirements for signature authority in order to ensure a successful application submittal.

COSTIS-IA Budgets and Applications

Review how to submit your application for the new COSTIS-IA system.

Underground Damage Prevention Excavation Overview

The UDP Safety Commission presentation will include an overview of the Safety Commission's enforcement role, the complaint process and the importance of contacting 811 before digging.

Remediation Overview & Recognized Environmental Professionals

Remediation will start with a background of the program and introduce key staff as well as provide an overview and updates on the REP program.

2:45 - 3:15 pm

Afternoon Break

Petroleum Program: Session Four

3:15 - 4:00 pm

Release Response Requirements

Remediation staff will provide an overview of release discovery, reporting requirements and the next steps.

Tank Closure

Remediation staff will be reviewing tank closure requirements including notification requirements to field procedures.

Remediation Reports Overview

Presentation on requirements for reports and deadlines, successful Site Characterization and report submittal, Corrective Action Plan/Modification process, and the 4 tiers of No Further Action and how to potentially achieve one.

What's New / Reasonable Cost Guideline Updates

A brief update of the RCGs and a Q&A session for Owner/Operator and consultants to ask questions about releases, assessment and cleanup.

4:00 pm
