

Commission Member Profile

Dana Bijold

Dana Bijold is the Engineering Group Lead at Goodbee and Associates. She has over 21 years of experience on civil and transportation engineering projects. Dana manages utility coordination and design consistent with ASCE 38 for all phases of project development.

Dana has also been an industry leader for the training, education, and implementation of C.R.S. 9-1.5 (SB 18-167) and related SUE plan requirements. She also participated in the development of ACEC Colorado's Best Practices Paper for the subsurface utility engineering (SUE) component of the law.

Dana is a Licensed Professional Engineer, and she has a BS in Civil Engineering from Valparaiso University and both an MBA and MS in Management from the University of Colorado.
