## *Laura Lancaster*

Laura Lancaster has been in health and safety roles within the Oil and Gas industry for over 20 years. During this time, she has worked for three operators in Western Colorado. Prior to this, she was a Law Enforcement Officer for a small town in Western Colorado.

Ms. Lancaster has a Bachelor of Science from Kansas State University in Park Resource Management and a secondary degree in Natural Resource/Environmental Science. She gained her certification as a Certified Safety Professional via the Board of Certified Safety Professionals in 2015.

During Ms. Lancaster's time with the first energy operator, she worked extensively on compliance projects involving Process Safety Management and PHMSA regulated pipelines. Safety, whether it be public safety or worker safety, has always been a focus during her career.
