

# Commission Member Profile

## *Mitchell L. Pebley*

Mitch Pebley has worked the last 37 years in the Natural Gas, Oil and Gas, and Natural Gas Compression and Transmission Operations for companies like Kansas Nebraska Gas, KN Energy, Kinder Morgan, Source Gas, Black Hills and now currently with Summit Utilities in Centennial, Colorado. Mitch then retired for three months before becoming the Vice President of Operations for Summit Engineering, which later became Sargent and Lundy. The opportunity to go back into the natural gas industry came up and Mitch then took over his current position.

Mitch currently serves as the Director of Operations for Colorado (CNG Summit Utilities), Missouri Gas (Summit Utilities) and Maine Natural Gas (Summit Utilities). Mitch is responsible for natural gas delivery, compliance, and operations for the three states.

Mitch is a member of DPAC and Coloradans for Energy Access for the State of Colorado.

Natural Gas Operations are in the right of ways, which requires working within the Excavation Requirements law and coordinating with facility owners, county, state and federal entities for pipeline installation, compliance, and gas operations.
